

How to disable automation from the VoipNow interface

Applies to VoipNow 3 and higher!

This article describes how to disable the Automation panel, since VoipNow and VoipNow Automation require separate licenses.

Step-by-step guide

STEP 1: Go to **Unified Communications** in the main menu.

STEP 2: Then click on **Integration** in the **Zero Priority** area.

STEP 3: Deselect the **Enable VoipNow Automation back-end** checkbox. This will disable the **Automation** panel. To enable it back, select the checkbox.

STEP 4: Click **OK** to return to the **Unified Communications** page.
