Administration

About Administration

This area describes all the settings available to customize VoipNow according to your needs. This is where you can find information on how to customize the interface, define your contact details, set your timezone preferences, manage time intervals, skins, sounds and languages. This is also where you can learn how to install and manage encryption certificates, provision and handle SIP devices, manage monitoring and backup, set up call screening, add develop plug-ins and custom buttons.

Get Help
If you still have trouble in setting up VoipNow, do not hesitate to ask for advice and follow VoipNow administrators in the GetSatisfaction community.

If you need more help, our expert engineers are waiting for you in the 4PSA Support Zone.
