Extensions

About Extensions

This area fully describes all the extension types available in the system, with specific references to how they can be managed and customized. You will learn how to access the extensions in the interface and perform the basic operation of adding an extension. Get insight on how it is possible to filter calls in bound and outbound. Some extension types have specific features. All of these are explained under each extension type.

Get Help
If you still have trouble in adding and managing extensions, do not hesitate to ask for advice and follow VoipNow administrators in the GetSatisfaction community.

If you need more help, our expert engineers are waiting for you in the 4PSA Support Zone.
