

# The Hang Up Rule

This page contains instructions on how to set up the Hang Up rule.

- [Overview](#)
- [Rule structure](#)
- [Rule options](#)

## Overview

When the Hang Up rule is in place, VoipNow hangs up all incoming calls taking into account various filters: CallerId, phone number, time interval, etc.

## Rule structure

The **Hang Up** rule structure is:

**<Hang up>** when CallerID **<callerID\_action>** **<number>** and call is in time interval **<time\_interval>**.

Add in position **<rule\_position>**. Can be managed from the extension with keypad code **<key\_value>**. **<Do not follow>** other rules when call is not completed.

## Rule options

For detailed information about these fields, please see the [The Play Busy rule](#) section.
