

# Update PhoneCalls

This document describes the UnifiedAPI requests that update phone calls.

## Update PhoneCall requests

The requests below enable you to update an existing phone call. The following action are available:

Request	Description
<a href="#">Park</a>	Parks a phone call.
<a href="#">UnPark</a>	Connects to a phone call that was previously parked.
<a href="#">OnHold</a>	Puts on hold an existing phone call.
<a href="#">OffHold</a>	Connects a phone call that is put on hold.
<a href="#">StartRecording</a>	Starts recording a phone call.
<a href="#">StopRecording</a>	Stops the recording of a phone call.
<a href="#">PickUp</a>	Picks up a phone call received on another phone terminal.
<a href="#">BargeIn</a>	Barges in on a phone call. Useful to communicate with queue agents.
<a href="#">Whisper</a>	Whispers on a call. Useful to communicate with queue agents.
<a href="#">Transfer</a>	Transfers a phone call to another phone number.
<a href="#">TransferToVoicemail</a>	Transfers a call to voicemail
