

# Extensions

## About Extensions

This area fully describes all the extension types available in the system, with specific references to how they can be managed and customized. You will learn how to [access the extensions](#) in the interface and perform the basic operation of [adding an extension](#). Get insight on how it is possible to filter calls [in bound](#) and [outbound](#). Some extension types have specific features. All of these are explained under each extension type.

### Get Help

If you still have trouble in adding and managing extensions, do not hesitate to ask for advice and follow VoipNow administrators in the [GetSatisfaction community](#).

If you need more help, our expert engineers are waiting for you in the [4PSA Support Zone](#).
